

## AN EXCITING AND FLEXIBLE DRIVING EXPERIENCE IN CUBA

The go-as-you-please-open-voucher plan was specially designed for those free spirits who do not want to be bound by an itinerary, but want to stay on a fixed budget.

One of the problems encountered when opting for flexibility is uncertainty: not knowing from day to day where to find the appropriate accommodations and more importantly, not knowing how much they will cost. This plan erases the uncertainty.

The Open Voucher system was created primarily to provide our visitors a driving adventure with the freedom of choosing at their own will where to stay all over Cuba from an extensive choice of hotels and Villas offered at a very good value. We made a special selection of hotels and Villas standardized at one same value voucher per night including breakfast.

### How does this plan work?

You would calculate how many nights accommodation you would need, and purchase the appropriate number of vouchers for those nights. You could choose just Bed & Breakfast vouchers. Add the applicable costs of each voucher, and you will have your total accommodation costs figured out. You could also mix in stays in Hotels that are not included in the Plan.

### Does it have any restrictions?

Unlike other similar plans, a minimum purchase of nights is not required with our OPEN VOUCHER, and renting a car is optional, although we recommend that you should rent a car.

### What other charges would I have?

There would be very small supplements, for the hotels marked with an X in the list of hotels, you will have to pay a supplement of 4.00 CUC per person per night, all payable locally and directly to the establishments.

### How are the reservations handled?

We recommend that you pre-book your first night so that you can proceed to your accommodations immediately after your arrival. After that, you can call ahead to each establishment to make your booking.

### How many choices will I have of places to stay?

In Cuba, you will have a choice from 50 Bed & Breakfasts from the largest cities to the smallest towns and rural areas.

Additionally, there are over 100 Hotels that you can combine but do not participate in the Hotel Voucher program.

### What information will I have concerning these establishments?

Your travel documents will consist of your vouchers as well a detailed directory containing the following information, which you should print from the Internet:

Table of Distances between Hotels and Villas included in the Open Voucher program. A Road Guide specially published by our company for our clients when they rent a car. A Directory of hotels including phone number and address. Recommended attractions. In other words, all the information you could possibly need in order to make an informed choice.

## OPEN VOUCHER CONDITIONS

- The first night in Cuba can be reserved in advanced with Vacacionar Travel without additional cost.
- Vacacionar Travel is providing you the Open Voucher together with the rented car of your choice.
- You can make your own reservations by telephone or you can ask for availability showing your open voucher at the reception desk of each listed hotel.
- The hotel reserves its own right to accept your reservation or to give you a room upon arrival depending on availability.
- Children under 14 staying with adults are free of charge, a maximum of one child per room.
- The Open Vouchers purchased are not refundable or endorsable.
- Upon your arrival at the airport, you will receive your rented car and a Road Guide.
- We recommend that you print the entire list of hotels included in the program from our website, as well as information about Cuba.

## OPEN VOUCHER.

Para los hoteles marcados con un + en la relación de hoteles, se pagará un suplemento de 4.00 CUC por persona por noche directamente en la recepción del hotel.

Small, intimate and welcoming, and built on the beach, the Hotel La Rusa (The Russian) catches the pleasant sea breezes and offers an immense panorama of blue waters from its windows. Baracoa provides visitors with the unique opportunity to observe and admire the singular topography of the Yunque, a high, flat-topped hill that caught the attention of Admiral Christopher Columbus when he arrived in the area in 1492. The historic quarters and the Matachín and La Punta Fortresses are witnesses to the Spanish presence in the village. From the hotel, you can visit the Duaba Farm, where the abundance of fruit trees create the perfect scenario to enjoy Cuban cuisine, countryside traditions and the flavor of the magical cocoa fruit. Very close to the hotel is Playa Miel (Honey Beach), exhibiting its grey-colored sand.

### **LA LUPE, VILLA**

Address: Carretera El Salvador km. 3 ½

Phone: (53 21) 38-2612 · 38-1170

Nature, comfort and good services come together in Villa La Lupe, on the banks of the Bano River. Located near the city of Guantánamo, this facility stands between the invariable murmur of the rushing river and the abundance of tropical trees and plants, an ideal atmosphere to spend time with family and friends. Modern, comfortable rooms, decorated with delicacy and care, distinguish this villa. From here, you can easily access the Cuchillas del Toa Biosphere Reserve and the city of Baracoa – the first village founded by the Spanish conquistadors in Cuba. You can also visit a curious Stone Zoo, where over 300 figures of animals from all continents, carved into the rock by farmer-sculptor Angel Íñigo Blanco, are displayed. This is Cuba's most peculiar Zoo.
